# Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 15.04.2025 Version number 34 Revision: 15.04.2025

#### 1 Identification of the substance/mixture and of the company/undertaking

· Product identifier

· Trade name MC-Injekt 2700 - Komponente B

• CAS Number: 9016-87-9 • Index number: 615-005-01-6

Relevant identified uses of the substance or mixture and

uses advised against

No further relevant information available.

· Application of the substance

/ the mixture Injektion

Polyurethane resin

Hardening agent/ Curing agent

· Details of the supplier of the safety data sheet

Manufacturer/Supplier: MC-Bauchemie Müller GmbH & Co. KG

Am Kruppwald 1-8 D-46238 Bottrop Tel.: +49(0)2041-101-0 Fax.: +49(0)2041-101-400 E-Mail: info@mc-bauchemie.de

MC-Bauchemie AG Hagackerstr. 10 CH-8953 Dietikon Tel.: +44-7400510 Fax: +44-7400533

· Informing department: msds@mc-bauchemie.de

### 2 Hazards identification

· Classification of the substance or mixture

Acute Tox. 5

H333 May be harmful if inhaled.

Skin Irrit. 2

H315 Causes skin irritation.

Serious and demonstration. Cotogory 34 H310 Causes serious and irritation.

Serious eye damage/irritation – Category 2A H319 Causes serious eye irritation.

Resp. Sens. 1 H334 May cause allergy or asthma symptoms or

breathing difficulties if inhaled.

Skin Sens. 1 H317 May cause an allergic skin reaction.

Carc. 2 H351 Suspected of causing cancer.

STOT SE 3 H335 May cause respiratory irritation.

STOT RE 2 H373 May cause damage to organs through

prolonged or repeated exposure.

· Label elements

· GHS label elements The substance is classified and labelled according to the Globally

Harmonised System (GHS).

(Contd. on page 2)

Page 2/10

(Contd. of page 1)

Printing date 15.04.2025 Version number 34 Revision: 15.04.2025

#### Trade name MC-Injekt 2700 - Komponente B

· Hazard pictograms

GIISOI GIIS

· Signal word Danger

· Hazard-determining

components of labelling: Diphenylmethane diisocyanate, isomers and homologues

• **Hazard statements** H333 May be harmful if inhaled. H315 Causes skin irritation.

H319 Causes serious eye irritation.

H334 May cause allergy or asthma symptoms or breathing

difficulties if inhaled.

H317 May cause an allergic skin reaction. H351 Suspected of causing cancer. H335 May cause respiratory irritation.

H373 May cause damage to organs through prolonged or repeated

exposure.

• Precautionary statements P260 Do not breathe dust/fume/gas/mist/vapours/

spray.

P261 Avoid breathing dust/fume/gas/mist/vapours/

spray.

P280 Wear protective gloves/protective clothing/eye

protection/face protection.

P284 [In case of inadequate ventilation] wear

respiratory protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for

several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing.

P403+P233 Store in a well-ventilated place. Keep container

tightly closed.

· Other hazards

· Results of PBT and vPvB assessment

· **PBT:** Not applicable. · **vPvB:** Not applicable.

### 3 Composition/information on ingredients

· Chemical characterisation: Substances

· CAS No. Designation: CAS: 9016-87-9 Diphenylmethane diisocyanate, isomers and

homologues

· Identification number(s):

• Index number: 615-005-01-6

ΑE

(Contd. of page 2)

## 4 First aid measures

· Description of first aid measures

• General information Remove, decontaminate and dispose of soiled, soaked clothing

and shoes immediately.

· After inhalation Remove person to fresh air, keep warm, allow to rest; if breathing

is difficult, seek medical attention.

· After skin contact In case of contact with skin, preferably wash with polyethylene

glycol-based cleaner or clean with plenty of warm water and soap.

Consult a doctor in case of skin reactions.

· After eye contact Rinse the eyes with open eyelids for a sufficiently long time (at

least 10 minutes) with water that is as lukewarm as possible.

Consult an ophthalmologist.

· After swallowing Do NOT induce vomiting. Rinse mouth with water. Medical

attention required.

Information for doctor

· Most important symptoms and effects, both acute and

delayed

Information for the doctor: The product irritates the respiratory tract and is a potential trigger for skin and respiratory sensitisation. Treatment of acute irritation or bronchial constriction is primarily symptomatic. Depending on the extent of exposure and the symptoms, prolonged medical treatment may be necessary.

· Indication of any immediate medical attention and special

treatment needed No information available.

## 5 Firefighting measures

· Extinguishing media

· Suitable extinguishing agents Use fire fighting measures that suit the environment.

· Special hazards arising from

the substance or mixture Can be released in case of fire

Carbon monoxide (CO) Nitrogen oxides (NOx) Hydrogen cyanide (HCN)

Under certain fire conditions, traces of other toxic gases cannot be

excluded.

· Advice for firefighters

· Protective equipment: Put on breathing apparatus.

#### 6 Accidental release measures

 Personal precautions, protective equipment and emergency procedures

Keep people at a distance and stay on the windward side.

Put on breathing apparatus.

(Contd. on page 4)

Page 4/10

# Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 15.04.2025 Version number 34 Revision: 15.04.2025

#### Trade name MC-Injekt 2700 - Komponente B

(Contd. of page 3)

• Environmental precautions: Prevent material from reaching sewage system, holes and cellars.

· Methods and material for

containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders,

universal binders, sawdust).

Dispose of contaminated material as waste according to item 13.

Ensure adequate ventilation.

· Reference to other sections See Section 7 for information on safe handling

See Section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

### 7 Handling and storage

· Handling

· Precautions for safe handling Ensure sufficient air exchange and/or extraction in the work areas.

Air extraction is required for spray application.

For solid products: Avoid dust formation and dust deposits. Air limit values mentioned in section 8 must be monitored.

At workplaces where isocyanate aerosols and/or vapours can occur in higher concentrations, targeted air extraction must be used to prevent the occupational hygiene limit value from being

exceeded. The air must be moved away from people.

For products containing solvents: Explosion protection required. The personal protective measures described in section 8 must be observed. The protective measures required when handling isocyanates must be observed. Avoid contact with skin and eyes

and inhalation of vapours.

Keep away from food and beverages. Wash hands before breaks and at the end of work and apply skin protection ointment. Store work clothes separately. Remove soiled, soaked clothing immediately.

· Conditions for safe storage,

including any

incompatibilities Keep container dry and tightly closed. Further information on the

storage conditions that must be observed for quality assurance

reasons can be found in our technical data sheet.

· Storage

· Requirements to be met by

**storerooms and containers:** Store only in the original container.

· Further information about

storage conditions: None.
Storage class 10

· **Specific end use(s)** No further relevant information available.

#### 8 Exposure controls/personal protection

· Additional information about

design of technical systems: No further data; see section 7.

· Control parameters

· Components with critical values that require monitoring at the workplace:

CAS: 9016-87-9 Diphenylmethane diisocyanate, isomers and homologues

WEL (Great Britain) | Short-term value: 0.07 mg/m³

Long-term value: 0.02 mg/m3

Sen; as -NCO

· DNELs

CAS: 9016-87-9 Diphenylmethane diisocyanate, isomers and homologues

Inhalative DNEL 0.05 mg/m³ (ArL)

· PNECs

CAS: 9016-87-9 Diphenylmethane diisocyanate, isomers and homologues

PNEC 1 mg/l (Sewage Treatment Plant)

0.1 mg/l (Mew) 1 mg/l (Freshwater)

PNEC 1 mg/kg dwt (Bod)

• Additional information: The lists that were valid during the compilation were used as basis.

· Exposure controls

Personal protective equipment

General protective and

**hygienic measures** Keep away from food, drink and animal feed.

Remove soiled, soaked clothing immediately.

Wash hands before breaks and at the end of work.

Avoid contact with eyes and skin.

· Breathing equipment: Respiratory protection required at insufficiently ventilated

workplaces and when working with splashes. Fresh air masks or combination filters A2-P2 (EN529) are recommended for short-

term work.

If applicable, further recommendations for respiratory protection

can be found in the appendix.

In case of hypersensitivity of the respiratory tract (asthma, chronic

bronchitis), handling of the product is not recommended.

• Protection of hands: Suitable materials for protective gloves; EN 374:

Butyl rubber, nitrile rubber, chloroprene rubber (neoprene).

Note: suitable materials that provide sufficient protection for industrial cleaning with aprotic polar solvents (according to IUPAC

definition): butyl rubber.

In case of prolonged or frequently repeated contact, a glove with a protection class of 5 or higher is recommended (breakthrough time greater than 240 minutes according to EN374). For short-term contact, a glove with a protection class of 3 or higher is

recommended (breakthrough time greater than 60 minutes

(Contd. on page 6)

Page 6/10

# Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 15.04.2025 Version number 34 Revision: 15.04.2025

#### Trade name MC-Injekt 2700 - Komponente B

(Contd. of page 5)

according to EN374).

The thickness of the material is not the only criterion for the level of protection of a glove against a chemical substance. The protective effect also depends to a large extent on the type of glove material. Depending on the type and material, the thickness must be more than 0.35 mm to ensure adequate protection in the event of prolonged and frequent contact. Exceptions to this rule are multilayer gloves, which guarantee sufficient protection even with a thickness of less than 0.35 mm during prolonged wear. Other glove materials with a thickness of less than 0.35 mm only provide sufficient protection for short periods of wear.

For solvent-free products:

Example:

Polychloroprene - CR: thickness ≥0.5mm; breakthrough time

≥480min.

Nitrile rubber - NBR: thickness ≥0.35mm; breakthrough time

*≥*480min.

Butyl rubber - IIR: thickness  $\geq$ 0.5mm; breakthrough time  $\geq$ 480min. Fluoro rubber - FKM: thickness  $\geq$ 0.4mm; breakthrough time

≥480min.

Recommendation: Dispose of contaminated gloves.

· Material of gloves

Polychloroprene - CR Nitrile rubber - NBR Butyl rubber - IIR Fluoro rubber - FKM

· Penetration time of glove

material

Polychloroprene - CR: thickness ≥0.5mm; breakthrough time

*≥*480min.

Nitrile rubber - NBR: thickness ≥0.35mm; breakthrough time

≥480min.

Butyl rubber - IIR: thickness ≥0.5mm; breakthrough time ≥480min. Fluoro rubber - FKM: Thickness ≥0.4mm; Breakthrough time

≥480min.

• Eye protection: Safety goggles with side protection in accordance with EN 166.

· Body protection: Use chemical-resistant protective clothing.

In case of hypersensitivity of the skin, handling the product is not

recommended.

#### 9 Physical and chemical properties

- · Information on basic physical and chemical properties
- · General Information
- · Appearance:

Form: Liquid
Colour: Dark brown
Smell: Characteristic

· Primary irritant effect:

· Skin corrosion/irritation Irritant for skin and mucous membranes.

· Serious eye damage/irritation Irritant effect.

· Respiratory or skin

**sensitisation** Sensitization possible by inhalation.

Sensitization possible by skin contact.

· Additional toxicological

information: The product shows the following dangers according to the

calculation method of the General EC Classification Guidelines for

Preparations as issued in the latest version:

Harmful Irritant

· CMR effects (carcinogenity, mutagenicity and toxicity for

reproduction) Carc. 2

### 12 Ecological information

· Toxicity

• Aquatic toxicity: No further relevant information available. • Persistence and degradability No further relevant information available.

· Behaviour in environmental systems:

Bioaccumulative potential
 Mobility in soil
 No further relevant information available.
 No further relevant information available.

· Additional ecological information:

• General notes: Do not allow undiluted product or large quantities of it to reach

ground water, water bodies or sewage system.

· Results of PBT and vPvB assessment

PBT: Not applicable.vPvB: Not applicable.

• Other adverse effects No further relevant information available.

## 13 Disposal considerations

· Waste treatment methods

· Recommendation Must not be disposed of together with household garbage. Do not

allow product to reach sewage system.
